

Assalamualaikum Wr. Wb

My Name is Chairul Gani Im from Multimedia classs 1 students number 8

Here, I would like to present my UKK Product

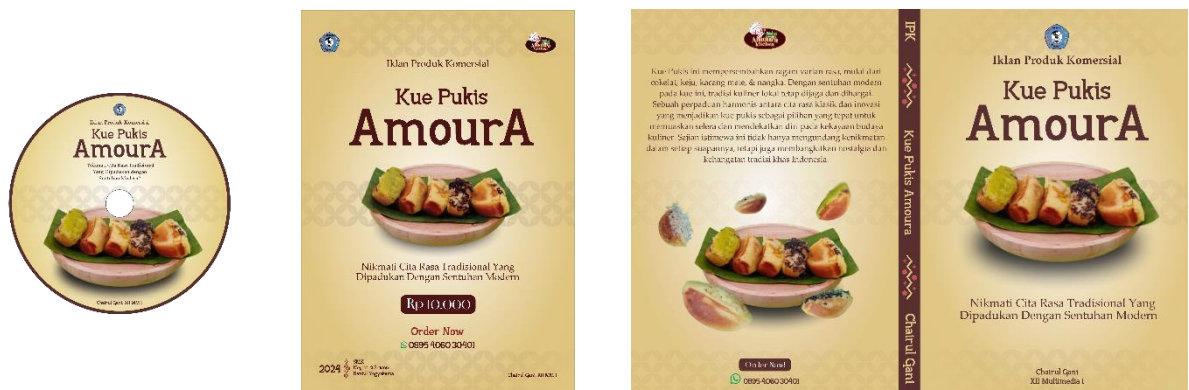

I Made adversting commercial product "Amoura Pukis Cake"

Since I have a special mold at home I decided to choose this product. The pukis cakes that I make offer modern flavor variants such as matcha, chocolate, cheese, cashew, & jackfruit which combine traditional and modern innovation.

The commercial product advertisements that I create aim to promote and market creatively and attract the interest of consumers looking for delicious snacks. Apart from that, it is also to build a more modern Pukis cake brand image.

That's all my presentation, Thank You
